## PROFESSIONAL SUMMARY

---

Freelance full-stack developer who runs the whole client relationship solo, from requirements meetings and system design through build and delivery, on projects including a car rental management platform and a travel & tours booking system. Backed by a BSIT degree, three internships across development, IT support, and audit, and a track record of shipping systems that stick: a public tourism site still live today, and an offline-first youth-profiling platform that cut data-entry errors by 65% for barangay officials working with unreliable connectivity.

## TECHNICAL SKILLS

---

**Languages:** PHP, JavaScript, Python, Dart, SQL, C++, Java

**Frameworks & Libraries:** Laravel, ReactJS, jQuery, Flutter

**Mobile Development:** Flutter, offline-first architecture, SQLite, Drift

**Backend & DevOps:** REST API design, Supabase, Docker, Git, GitHub, Vercel, Postman

**AI & Design Tools:** Claude AI, Antigravity, Figma AI, Google Stitch, n8n

## FREELANCE EXPERIENCE

---

### Freelance Full-Stack Developer

2024 – Present

*Self-employed, Zamboanga City*

- Ran full-lifecycle client engagements independently, from initial discovery calls and requirements gathering through system design proposals, build, feedback rounds, and final handover, with no project manager or team layer in between.
- Built a car rental management platform covering vehicle inventory, real-time availability, a customer-facing booking flow, and an admin dashboard for managing fleet and reservations.
- Built a travel and tours booking system with package browsing, itinerary details, and a customer reservation workflow, deployed for live client use.
- Owned the complete stack on every engagement, from database schema design and backend APIs to frontend interfaces and deployment, translating client requirements directly into shipped features without a spec handed down from someone else.

## INTERNSHIP EXPERIENCE

---

### Web Developer Intern

Feb 2026 – May 2026

*RightJob Solutions, Zamboanga City*

- Designed and launched discoverzamboanga.com, a public-facing tourism platform built on WordPress, now live and accessible to users.
- Built a Python-based image processing tool (convert, resize, background removal) adopted internally by the company, saving manual editing time across the team.

### IT Support Intern

Jun 2024 – Aug 2024

*Assault Armor Battalion, Zamboanga City*

- Resolved hardware and software issues for military personnel, improving workstation uptime and reducing repeat support requests.
- Installed and configured CCTV surveillance systems across the facility, strengthening physical security monitoring.

### Documentation & Audit Intern

Jun 2023 – Aug 2023

*ZPPSU Accreditation Center, Zamboanga City*

- Audited and reorganized marine engineering academic files to meet CHED accreditation standards, directly reducing documentation errors during the audit cycle.

## PROJECTS

---

## SK Salaan — Youth Profiling System (Mobile, Web & API)

*Flutter, ReactJS, Laravel, SQLite/Drift, MySQL*

- Architected and led development of a 4-repository offline-first system (mobile app, web dashboard, REST API, public website) designed for barangay officials in low-connectivity areas.
- Reduced manual data entry errors by 65% by building reliable offline sync logic that queues and merges records when connectivity is restored.
- Sole developer across the full stack, from database schema to UI, demonstrating end-to-end ownership.

*More projects (POS system, school enrollment system, image processing tool, freelance car rental system, freelance travel & tours booking system) available at [incentramillano.store](https://incentramillano.store)*

## EDUCATION

---

### Bachelor of Science in Information Technology

*Zamboanga Peninsula Polytechnic State University*

## CERTIFICATIONS & TRAINING

---

- NC II — Client and Server Servicing (TESDA)
- Certificate of Internship — Documentation & Audit, Marine Engineering Files (248 hrs), ZPPSU Accreditation Center, 2023
- Certificate of Internship — IT Support Technician (248 hrs), Assault Armor Battalion, 2024
- Certificate of Internship — Web Developer (483 hrs), RightJob Solutions, 2026
- Certificate of Participation — Build with AI Zamboanga, Google Developers Group Zamboanga, 2026
